

Gadget Guy

A place for everything and everything in its place. Since these jackets and vests have as many as 44 pockets to stow all your travel gadgets, it's nice to know that they've included a suggestion card that gives you a clue as to what goes where. Like an MP3 player pocket (or whatever) that allows the wire to go up and through the collar to the handy storage flaps for earbuds.

Adjustable pocket sizes fit what you consider essential items, and inside channels conceal any wires. There's even a version with a built-in solar panel for recharging your electronic goodies. Starting at \$129, by ScotteVest. Phone: 866/909-8378; www.scottevest.com.
